ABOUT ME

Working for more than 13 years on everything that requires design, from branding, website design, illustration, icon design and print. Having a strong knowledge of html & css/less I am able to deploy design into working code. I am obsessed about details and I am able to spot the pixel difference. I don't like the words "not possible" and I am always driven to get the best visual results out of every project that land on my desk.

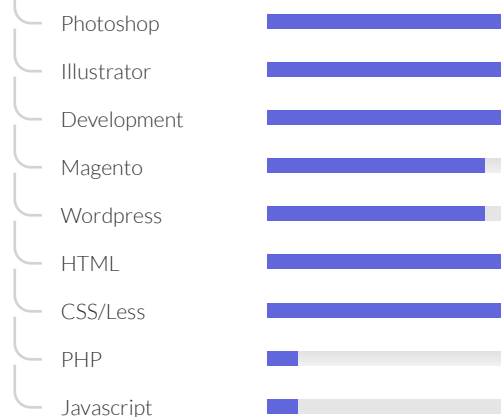

EMPLOYMENT

- 2004 - Present** **Transform Agency**
Senior Designer / Art Director
 I was responsible for all things related to design and many times took on projects from branding and all the way to the code behind the website that I have designed. A lot of the projects where either Magento or Wordpress and besides the website design I was also responsible for the development of the theme/code and then the customization of the integrated plugins or extensions to match the approved design.
- 2003 - 2004** **eAlliance Solutions**
Graphic Designer
 I was in charge of creating the design for various websites along with working on branding projects.
- 2001 - 2003** **eta2u Computers**
Graphic Designer
 Started the marketing department and built the inhouse monthly A4 format magazine showcasing products and offers. website + brands
